VictoryVPN

IKEv2 INSTALLATION GUIDE IOS

This guide will help you to set up the connection to our servers in a few simple steps. You only need to do this once, when you are about to use VictoryVPN for the first time.
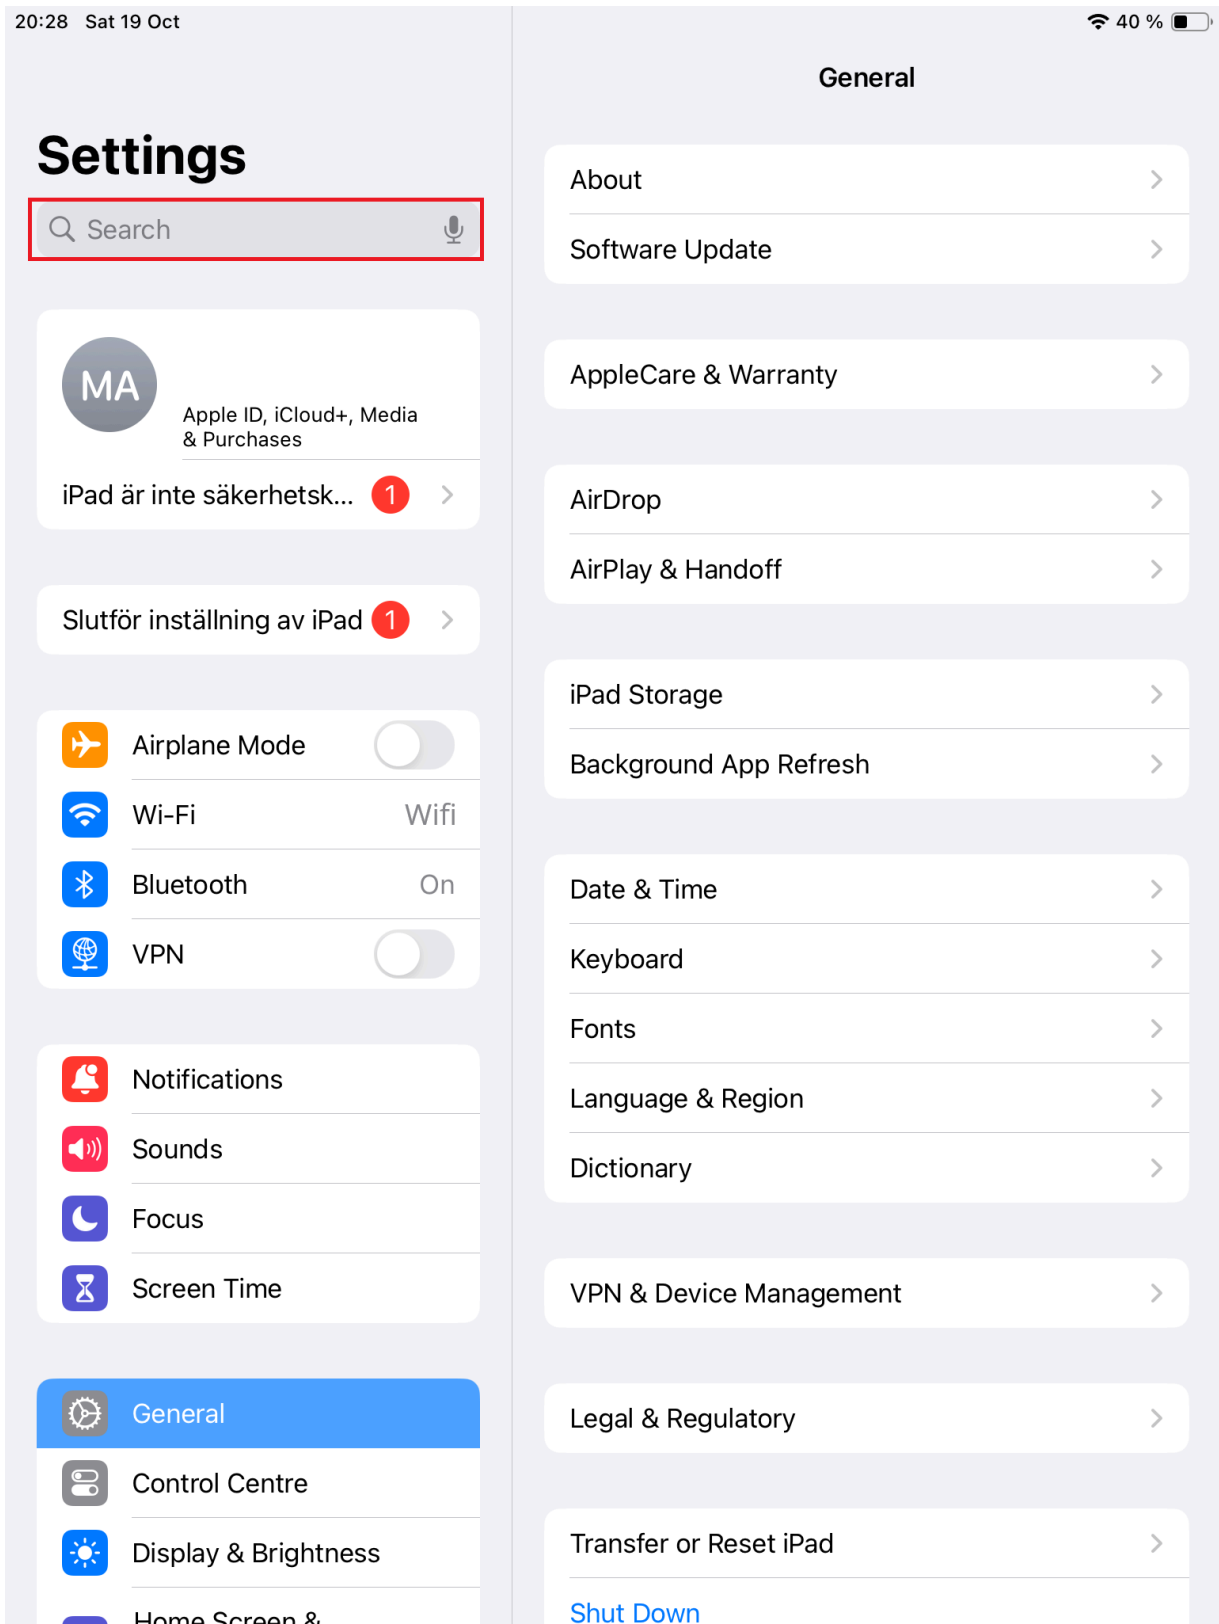

You'll also receive some instructions on how to connect and disconnect the VPN connection, and instructions if you're planning to watch TV or streaming services.

VPNs can be set up to control the routing of certain network
traffic. About VPNs & Privacy...

Step 3: Tap on **"Add VPN Configuration"**.
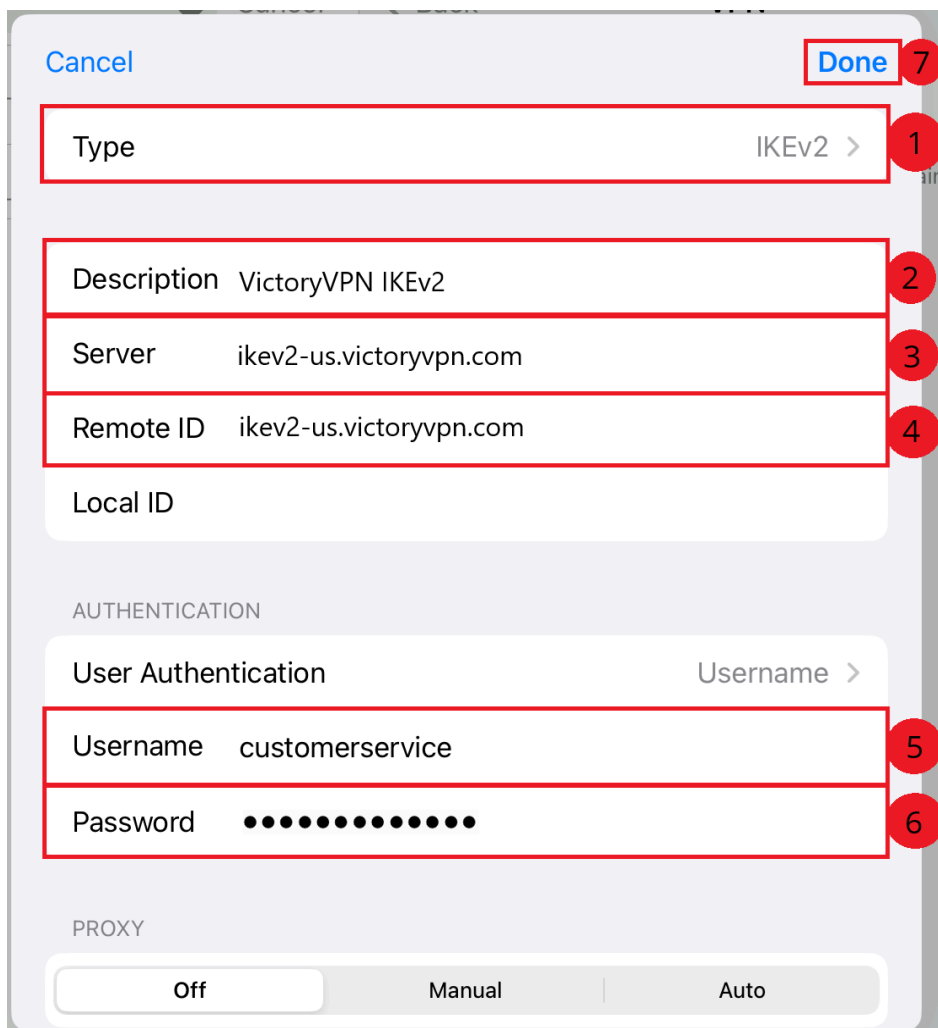

## Step 4:

(1) In the field **"Type"**, it should be **IKEv2** by default. If not, select it.

(2) In the field **"Description"**, you give your connection a name. This needs to be unique which means no other connection can't have the same name. We recommend that you name it **"VictoryVPN IKEv2"**, but you can give it any name you'd like.

(3) In the field **"Server"**, enter the server address **"ikev2-us.victoryvpn.com"**.

(4) In the field **"Remote ID"**, enter the server address **"ikev2-us.victoryvpn.com"**

(5) In the field **"Username"**, enter your username that you chose when creating your account.

(6) In the field **"Password"**, enter your password that you chose when creating your account.

Finally, you click the **Done** (7) in the top right corner.

PART 2: CONNECTING TO VICTORYVPN

Q Vpn ⊗   Cancel

VPNs can be set up to control the routing of certain network traffic. About VPNs & Privacy...

Once you've saved your connection, you'll be returned to your VPN Connections and from here you can choose the connection you want to use (1) and tap the **sliding button** to connect(2). To disconnect, simply press the same sliding button.

When connected, you will see **"Connected"** next to the **sliding button**(2) and the **VPN icon**(3) in your toolbar on the top
